Version: October 2023

RE: Computers for Students – Participation agreement

Bremer State High School believes all students should have equal and dependable access to a learning device, software and curriculum materials that support them to demonstrate their knowledge, understanding, and skills in diverse ways, manage communication within and beyond the school and organise their academic demands.

Your student is invited to be part of the Computers for Students Program. This is a 3-year program, where students receive a new business-class ACER 2-in-1 laptop device with a 3-year warranty, that the school has purchased. Your student will be issued one of these, with additional resources at a discounted price. **This program replaces our Bring Your Own Device program for students beginning Year 7.**
