

Prerequisites for Year 11

The table below details the official prerequisites for Year 10 students progressing into Year 11. Please note that students **must demonstrate a pattern of achievement across the year** to meet the requirements of the prerequisite. As such, a student who achieves a 'B' in Semester 1, but a lower achievement in Semester 2, may not be eligible for entry to the subject selected.

- Students should read this document carefully to identify if there are prerequisites for the subjects they are interested in undertaking. Prerequisites mean that the student must have reached the required level of achievement by the end of Semester 1 of Year 10 to gain admission to the subject and to be successful in that subject.
- Prerequisites, as specified, are supported by a range of other indicators including the student's: **attendance, effort and engagement**. All General Subjects have a requirement for semester passes during the course to allow continuation of study in the subject. A semester result of 'LA' or 'VLA' will require the student to show cause why they should be allowed to continue in that subject.
- Students **may reselect their subjects at the end of Year 10** if they have gained the necessary grades to meet the required prerequisites.

Area of Study	Subjects offered in Year 11	Subject Prerequisites
Mathematics	General <ul style="list-style-type: none"> • General Mathematics • Mathematical Methods • Specialist Mathematics 	B in Yr10 Mathematics no pre-requisite required for Extension Mathematics B in Yr10 Extension Mathematics B in Yr10 Extension Mathematics (& Methods)
